Art Unit: 2133

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 14-50 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9, 11-20, 22-26, 28-33, 35-37 and 39-40 of U.S. Patent No. 6,665,829. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims 14-50 are broader in scope than the patent claims 1-9, 11-20, 22-26, 28-33, 35-37 and 39-40 by removing at least one of the plurality of constituent codes as a transfer function of (for example: $G(D) = (1, (1+D+D^3)/(1+D^2+D^3), (1+D+D^2+D^3)/(1+D^2+D^3))$ or by removing $(1+D+D^2+D^3)/(1+D^2+D^3)$). Thus, the invention defined in claims 14-50 are an obvious variation of the patent defined in the patent claims 1-9, 11-20, 22-26, 28-33, 35-37 and 39-40.

The following table shows the claims in 10/662,149 that are rejected by corresponding claims in patent 6,665,829.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 14-16 are rejected under 35 U.S.C. 112, first paragraph, as a single means or step claims i.e., where a means or step (for example: encoding data or turbo encoder or data) recitation does not appear in combination with another recited element

of means or step, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. In re Hyatt, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983) and MPEP 2164.08(a). An appropriate correction is required.

5. Applicant's arguments with respect to claims 1-50 have been considered but are moot in view of the new ground(s) of rejection.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung My Chung whose telephone number is 571-272-3818. The examiner can normally be reached on Monday to Friday.
